Greetings Honorable Panelist:

It gives me great pleasure to greet you along with "We The People" and the men and woman of The United States of America on the subject of income taxation. Enclosed are my valid points Of concern for the people of this great nation. However, I trust that viewing the enclosed Material will enlighten your paths to a more renewed system of lawful fairness in real law.

The "**Fundamental Problem**" with the current tax on income is that there is NO Statute at Large Which creates a "specific" **liability** for any of the taxes imposed by subtitle A of the Internal Revenue Code. Today's income taxation is equivalent to modern slavery, because the Internal Revenue Service uses "force of arms" via Threat, Duress & Coercion to get the American People to participate in an unlawful wonton activity, the real issue here is LIABILITY. Income tax liability arises ONLY from lawful statutes enacted specifically for that purpose, and not from any vague, concealed or undefined relationship to public policy, whatever that is!

Continue,

Never the less, The IRS may not create a tax liability via regulations published in the Federal Register. See 2amjur2d and (Commissioner v. Aker, in chief) In a nutshell, Income Tax Liability is an operation of law. Only Congress can make law, and it requires a "Lawful" Statute at Large to create a liability to Income Tax. There are no apportionment provisions for taxes that are effectively enforced (extorted) as "direct" taxes by the IRS. "Public Policy" means DIRECT TAXES WITHOUT APPORTIONMENT.

**Aspects of the tax system that are unfair and unlawful:** Taking private properties without a Warrant of Distract (court order), enforcing liens and levy's without due process of law, piracy, impersonating the legislature, not an official office within the Department of the Treasury according to regulations, using force of arms, along with Threats, Duress & intimidation, mail fraud, using the Dept of Treasury logo on letter heads and envelopes, IRS has NO respect for the Constitutions of Federal or State and NO respect for their own rules. Also take into account plaintiffs have never received any "valid" assessments signed under penalty of perjury by an authorized Assessment Officer.

**Specific examples of how the present tax code is distorted:**

3.

The present tax code is extremely vague, intentionally written to confuse. Federal judges, U.S. Attorneys, Certified Public Accounts, IRS agents cannot swear under penalty of perjury that they understand **all** aspects of the Internal Revenue Code. Please note# that the Title 26 has not been enacted into positive law, according to statute via Congress. We in America have people going to jail, based on vagueness alone and not by any statute nor affidavits to date. In signing a 1040 form one is subject to admitting that he or she is obeying a law. This is called, SUBORNATION OF PURJURY, because Congress **has not** by Statute, put forth a Liability Statute associated with subtitle A of the Internal Revenue Code. A tax on labor? Where is the LIABILITY STATUTE?? THERE IS NONE TO DATE.

Former Secretary of the Treasury, Paul H. O'Neill in November 1, 2002 fell silent in Face of Subpoena for Tax Liability Statutes issued by the Article 111 federal court in Santa Ana, California. The Clerk of that court commanded Secretary O'Neill to produce certified copies of all federal Statutes at Large which creates a "specific Liability" for income taxes imposed by subtitle A of the Internal Revenue Code. To This date, Mr. O'Neill is still SILENT!! WITHOUT a Specific Liability Statute, the Internal Revenue Code is a massive fiscal fraud viciously put upon the peace loving families of America.

**Goals That The Panel Should Try and Achieve:**

1. Scrap current IRS code for being intentionally misleading and vague.
2. Scrap the current IRS code for being a massive fraud on the American people.
3. Scrap the current IRS code, it has no Lawful force of law, only prima facie.
4. Let the Constitution for the United States of America be a mandate and not an option.
5. Stop the Tyranny of Subornation of perjury concerning the IRS form 1040, there is no liability statute commanding to pay a tax on our God given rights to the fruit of our labors.
6. Create a new system that ALL Men & Woman understand and agree to, the American people are taxed to death and yes, the current system is killing our society and our posterity.

IN CONCLUSION:

By these comments, I pray that your insight is blessed by the ALL mighty Creator to restore proper order for the people of this great nation. I pray for your guidance in correcting a massive wrong and implementing a just solution for God's people. You the panelist, are in the seat of making the "Lawful" decision for America. Thank You for your time and considerations.

Respectfully submitted,

  
Timothy Clanton
